### **INSTRUCTIONS**

1. All provisions and rules of construction set forth in Federal Rules 26 and 34 and Local Rule 26.3, as adopted by Rule 7026-1 of the Bankruptcy Rules, apply to these Requests.

2. In accordance with Federal Rule 34(b)(2)(B), object with specificity and state whether any responsive materials are being withheld on the basis of that objection.

3. In accordance with Federal Rule 34(b)(2)(B), the production must be completed either within 30 days of the service of these requests or by another reasonable time specifically identified in the response. When it is necessary to make the production in stages, the response should specify the beginning and end dates of the production.

4. If the Trustee is requesting communications concerning documents in a Request, the Trustee will so state.

5. Unless otherwise specified, produce documents that were created, modified, or existing for the period up to and including December 2, 2010.

6. If a request calls for documents concerning a Transfer, Initial Transfer, Subsequent Transfer, redemption, or withdrawal from an account, such request includes, but is not limited to, documents that reflect the account name and number for the account the funds were transferred from and to, method of transfer (*e.g.*, wire, check, etc.), date of, amount and the reason for the Transfer, Initial Transfer, redemption, or withdrawal.

7. If any document, or any part thereof, is not produced based on a claim of attorney-client privilege, work-product protection, or any other privilege, subject to an agreement

otherwise, then in answer to such Request or part thereof, for each such document, You must provide a log that:

- a. Identifies the type, title and subject matter of the document;
- b. Identifies all authors, addressees, and recipients of the document  
(including CCs and BCCs, with descriptive information about such  
Persons to assess the privilege asserted; and
- c. Describes the legal privilege(s) and the factual basis for the claim.

For emails, the log should include the last-in-time (or top) email in the chain, as well as the identities of any other authors, addressees, and recipients in the chain who are not in the top email.

8. Do not redact documents for any reason other than privilege. If documents are produced with redactions, a log setting forth the information requested in Instruction No. 7 above must be provided. The Trustee will accept documents designated not confidential under the June 6, 2011 Litigation Protective Order with redactions for personally identifiable information, provided that you also produce an unredacted version of the document designated confidential.

9. Certain instructions for production of documents are contained in Orders entered by the Bankruptcy Court on September 17, 2013: (I) Establishing Procedures for Third-Party Data Rooms; and (II) Modifying the June 6, 2011 Litigation Protective Order. Pursuant to those Orders, upon production, producing parties shall provide the following information in a production cover letter, to the extent any of the following information is applicable:

- a. the documents (listed in an Excel file document-by-document by  
beginning Bates and ending Bates for each document) that are designated  
as confidential pursuant to the Litigation Protective Order;

- b. the documents (listed in an Excel file document-by-document by beginning Bates and ending Bates for each document) that are designated confidential pursuant to an Individual Confidentiality Standard, if applicable;
- c. the documents (listed in an Excel file document-by-document by beginning Bates and ending Bates for each document) that should be excluded from the Third-Party Data Rooms; and
- d. the designated representative authorized for that production to provide consent to the disclosure of confidential documents requested or to object to the disclosure of confidential Documents.

Failure to provide such information in a production cover letter shall result in a waiver by the Producing Parties of:

- i. any confidential designations;
- ii. any objections to inclusion of the documents in the Third-Party Data Rooms; and/or
- iii. notification that documents have been requested for disclosure. For the avoidance of doubt, notwithstanding Paragraph 13 of the Order Establishing Procedures for Third-Party Data Rooms and Paragraph L of the Order Modifying the June 6, 2011 Litigation Protective Order,

Paragraphs 7 and 14 of the Litigation Protective Order continue to govern with respect to:

- A. inadvertent failure to designate confidential material as confidential or incorrect designations of confidential material (Paragraph 7 of the Litigation Protective Order); and

- B. inadvertent production or disclosure of any document or other material otherwise protected by the attorney-client privilege, work-product protection or a joint defense/common interest privilege (Paragraph 14 of the Litigation Protective Order).

### **FORMAT OF PRODUCTION**

1. All documents produced to the Trustee shall be provided in either native file (“native”) or single-page 300 dpi-resolution group IV TIF format (“tiff”) format as specified below, along with appropriately formatted industry-standard database load files, and accompanied by true and correct copies or representations of unaltered attendant metadata.

Where documents are produced in tiff format, each document shall be produced along with a multi-page, document-level searchable text file (“searchable text”) as rendered by an industry-standard text extraction program in the case of electronic originals, or by an industry-standard optical character recognition (“OCR”) program in the case of scanned paper documents.

Searchable text of documents shall not be produced as fielded data within the “.dat file” as described below.

2. Database load files and production media structure: Database load files shall consist of: (i) a comma-delimited values (“.dat”) file containing: production document identifier information, data designed to preserve “parent and child” relationships within document “families,” reasonably accessible and properly preserved metadata (or bibliographic coding in the case of paper documents), custodian or document source information; and (ii) an Opticon (“.opt”) file to facilitate the loading of tiff images. Load files should be provided in a root-level folder named “Data,” images shall be provided within a root level “Images” folder containing reasonably structured subfolders, and searchable text files shall be provided in a single root-level

“Text” folder. If any of the documents produced in response to these requests are designated as confidential pursuant to the Litigation Protective Order, in addition to marking the documents with the brand “CONFIDENTIAL” or branding the media with the word “CONFIDENTIAL,” also include a confidential field within the load file, with a “yes” or “no” indicating whether the document has been designated as confidential, as well as native file loading/linking information (where applicable).

3. Electronic Documents and data, generally: Documents and other responsive data or materials created, stored, or displayed on electronic or electro-magnetic media shall be produced in the order in which the documents are or were stored in the ordinary course of business, including all reasonably accessible metadata, custodian or document source information, and searchable text as to allow the Trustee, through a reasonable and modest effort, to fairly, accurately, and completely access, search, display, comprehend, and assess the document’s true and original content.

4. Emails and attachments, and other email account-related Documents: All documents and accompanying metadata created and/or stored in the ordinary course of business within commercial, off-the-shelf email systems including without limitation to Microsoft Exchange™, Lotus Notes™, or Novell Groupwise™ shall be produced in tiff format, accompanying metadata, and searchable text files or, alternately, in a format that fairly, accurately, and completely represents each document in such a manner as to make the document(s) reasonably useable, manageable, and comprehensible by the Trustee.

5. Documents and data created or stored in or by structured electronic databases: With the exclusion of email and email account-related documents and data, all documents and accompanying metadata created and/or stored in structured electronic databases or files shall be

produced in a format that enables the Trustee to reasonably manage and import those documents into a useable, coherent database. Documents must be accompanied with reasonably detailed documentation explaining each document's content and format, including without limitation to data dictionaries and diagrams. Some acceptable formats, if and only if provided with definitive file(s), table(s), and field level schemas include:

- a. XML format file(s);
- b. Microsoft SQL database(s);
- c. Access database(s); and/or
- d. fixed or variable length ASCII delimited files.

6. Spreadsheets, multimedia, and non-standard file types: All documents generated or stored in software such as Microsoft Excel or other commercially available spreadsheet programs, as well as any multimedia files such as audio or video, shall be produced in their native format, along with an accompanying placeholder image in tiff format indicating a native file has been produced. A "Nativelink" entry shall be included in the .dat load file indicating the relative file path to each native file on the production media. To the extent the party has other file types that do not readily or easily and accurately convert to tiff and searchable text, the party may elect to produce those files in native format subject to the other requirements listed herein. Native files may be produced within a separate root-level folder structure on deliverable media entitled "Natives."

7. "Other" electronic Documents: All other documents and accompanying metadata and embedded data created or stored in unstructured files generated by commercially available software systems (excluding emails, structured electronic databases, spreadsheets, or multimedia) such as, but not limited to, word processing files (such as Microsoft Word), image

files (such as Adobe .pdf files and other formats), and text files shall be produced in tiff and searchable text format in the order the files are or were stored in the ordinary course of business.

8. Paper Documents: Documents originally created or stored on paper shall be produced in tiff format. Relationships between documents shall be identified within the .dat file utilizing document identifier numbers to express parent document/child attachment boundaries, folder boundaries, and other groupings. In addition, the searchable text of each document shall be provided as a multi-page text file as provided for by these requests.
